MODE D'EMPLOI DE CE CATALOGUE, POUR SOLLICITER CORRECTEMENT LES PIÈCES DE RECHANGE:

- 1° - Identifiez exactement, par le moyen de la table signalée "Modèle", le modèle pour lequel vous désirez des pièces.
- 2° - Identifiez le numéro de référence du moteur ou du châssis de la machine pour laquelle vous commandez des pièces.
- 3° - Avec cette information cherchez la planche correspondant au groupe où se trouve le dessin de la pièce désirée. Ce dessin est signalé par un numéro sur la colonne marquée "figure", dont à la suite vous trouverez le code de la pièce en tenant en compte du modèle et du numéro de moteur et de châssis, comme signale plus haut.

Le département technique de DERBI SE RESERVE le droit d'introduire les modifications et améliorations nécessaires sans avis préalable.

Ces modifications seront indiquées par un astérisque (*) entre le casier "figure" et celui de "Code", qui détermine à partir de quel numéro de moteur et de châssis est valable la nouvelle pièce et sur la partie supérieure sera rappelée la pièce montée antérieurement à la modification.

- Si vous voyez un astérisque (*) sur le casier de "Figure" et il n'y a aucun numéro à la suite, cela veut dire:
 - a) S'il n'y a pas de coïncidence, cela veut dire qu'à partir du numéro de moteur ou châssis signalé par un astérisque (*), cette pièce n'est plus montée.

- 2°- Identify the engine or frame serial number from the machine for which you need the replacement part.
- 3°- With this information, refer to the diagram which contains the part you need "Figure" column will be used to determine the correct "Code" number, having in mind the model and engine or frame number.

The technical department of DERBI reserves the right to make modifications and improvements to their machines without prior notice.

These variations will be indicated on the parts diagram by an asterisk (*) between the "figure" and "code" columns, with the serial numbers that begin the new variation; above will be signaled the part before mounted and we will periodically remit updates of the latest improvements with their corresponding numbers.

- If not any code number follows the asterisk (*) in the "Figure" column, this means:

- a) If they do not coincide, this means that from the serial engine or frame number signaled by an asterisk (*), the part is no more mounted.
