Parts List

Indian Motorcycle Company

SPRINGFIELD, MASS.

U. S. A.

The Home of INDIAN Motorcycle

Introduction

This list covers spare parts for the G and GP 101-101A 1931 Series. Parts for the Chief and Indian 4 will be found in separate lists.

EXPLANATION

In this list will be found parts common to previous models, which we have manufactured and they carry the same factory number as before.

When a part is not interchangeable with previous models, it carries a new number.

Assembly numbers have indented under the assembly, the parts that go to make it up, where they can be purchased separately. In this manner it is very easy to determine what constitutes an assembly.

Practically all parts for the G-37 cubic inch Scout, are interchangeable with the GP-45 cubic inch Scout. When they differ and it involves a complete group, the groups are separated, but when it only involves one or two numbers in a group, the GP part is listed after the G.

TELEGRAPHIC ORDERS

In telegraphing or cabling orders, it will be convenient and economical to use the code words as, where desirable, the code words can be joined to any five-letter code, thus giving a ten-letter word.

In such cases when the order can be wired within ten words, use number to avoid errors in transmitting messages.

STATE COLOR WHEN ORDERING ENAMELED PARTS. RED IS STANDARD, AND WILL BE SENT UNLESS OTHERWISE SPECIFIED

PARTS ORDER BLANKS should be used when ordering. We supply these free on request. Confusion and delay frequently arise by not using these blanks.

TERMS

We do not open accounts except with our regularly established selling agents. Therefore, all individual orders must be accompanied by cash, without exception. This is not to be taken as a reflection on your personal credit; it is simply to avoid our carrying on the books a multitude of small accounts, the labor of which would in many cases cost more than the parts ordered.

In establishing this rule, time is saved which is an advantage to the person ordering the parts.

ALL C. O. D. ORDERS must be accompanied by sufficient remittance to cover transportation charges.

We are not responsible for goods after once shipped. For goods lost or damaged in express and freight shipments, claims should be made by the consignee.

We do not guarantee the delivery of Parcel Post shipments. All goods sent in this manner are at the consignee's risk. No Parcel Post shipments are sent forward insured unless so specified on your order.

CLAIMS FOR SHORTAGE. Each shipment is accompanied by a Packing Slip. In cases where parts check short, this Packing Slip **MUST** be returned for our inspection or no adjustment will be made.

PRICES ARE SUBJECT TO CHANGE WITHOUT NOTICE

REPLACEMENTS

Dealers and riders in many instances, when parts are broken, take it for granted that said parts are replaceable under our guarantee. Such is not the case, and parts sent in to us to be replaced are subject to our inspection for approval or rejection.

No parts will be replaced gratis which have shown defects unless the parts are returned to the dealer from whom the machine has been purchased, or to the factory.

GOODS RETURNED

Do not return any goods without our permission in writing. All carrying charges must be prepaid or otherwise we positively refuse to accept them.

When returning goods to us, either for repairs or replacements, in all instances a letter giving full and detailed particulars should be sent us.

WARNING

In keeping your machine at its top efficiency, it is mighty important that only genuine **INDIAN** parts are used.

The spurious **INDIAN** parts now being marketed trade on the **INDIAN** good name and entirely disregard the value and service the owner is entitled to.

Genuine **INDIAN** parts are made uniform and interchangeable. They do not have to be hand-fitted. Their quality and workmanship are guaranteed.

Chemical analysis shows that counterfeit **INDIAN** parts on the market are in every instance made of material inferior in quality to that used by us. Among the many parts we have examined, we have found bearing bronze only half the hardness of **INDIAN** metal. Valves are made from cold rolled steel instead of chrome nickel steel and case hardened parts so brittle as to be utterly unsafe.

Bear in mind the strain to which every part of the machine is subjected when running at high speed or on rough roads. Think of the possibilities of serious injury to yourself and wreckage of your machine from breakage of a vital part of counterfeit manufacture.

Is the risk worth the saving of a few cents more for the price of a genuine part and safety?

The market is flooded with inferior material to fit **INDIAN** machines, therefore insist on genuine **INDIAN** parts.

Remember also the guarantee becomes void immediately when a machine is fitted with counterfeits.

GUARANTEE

1. All new INDIAN MOTOCYCLES, Sidecars and Component Parts are guaranteed to be free from defects in workmanship and material. Our obligation under this Guarantee is limited to the replacement without charge of any part or parts, which shall, within ninety days from the date of the original sale by the Dealer, prove to be defective and which shall be promptly returned to us, transportation charges prepaid, for our examination and decision.
2. This Guarantee shall be terminated by the alteration of our construction in any way whatsoever, by the use of devices not approved by us, by the use of any but genuine INDIAN Parts for repair or replacement or by the subjecting of the Motorcycle to misuse, abuse or neglect.
3. We do not guarantee any parts of equipment or specialties not of our own manufacture, such as Tires, Magnetos, Saddles, etc. These parts are guaranteed by their respective manufacturers and, should they develop defects, should be sent direct to them.
4. When Motorcycles or assembled parts, in which defective parts are to be replaced, are sent to us, a reasonable charge for labor will be made.
5. This Guarantee is given by us in lieu of all other guarantees, expressed or implied, and all other obligations or liabilities on our part. The purchase of any INDIAN MOTOCYCLE Sidecar or Component Parts signifies acceptance by the purchaser of each of the provisions hereof. We neither assume nor authorize any other person to assume for us any other liability in connection with the sale or use of INDIAN MOTOCYCLES, Sidecars or Component Parts.
6. INDIAN MOTOCYCLES, Sidecars and Component Parts, sold by other than our recognized Dealers, are sold without our Guarantee, unless otherwise provided.
7. When sending in parts for replacement, customer must tag same with his name and address. A letter giving full and detailed particulars must be sent to us in each case, giving the engine number to avoid delay in identifying the consignment.

SERVICE

The sale of an INDIAN MOTOCYCLE does not mark the close of a transaction, but the beginning. Only through the co-operation of the dealer and his factory by the rendering of intelligent advice to the rider and mechanical attention to his machine when necessary, will the greatest satisfaction, pleasure and efficiency of operation be obtained. The purchaser of an INDIAN MOTOCYCLE commands the unapproached service facilities of factory branches supplemented by the service departments of our 2000 dealers. This organization maintained at great expense solely for the benefit of INDIAN riders offers prompt service on all orders sent to the factory.

Prices subject to change without notice.
