PARTS CATALOG

FX Models

1971 to 1984

Part No. 99455-83C

GENERAL INFORMATION

This Parts Catalog has been prepared for your convenience when ordering parts for 1971 to 1984 FX Models, except the FXR and FXST models which are covered in separate catalogs. Wherever possible, parts are shown in assembly breakdown sequence. Index numbers shown in the illustrations correspond to index numbers in parts lists. Consult the illustrations when ordering parts so you are sure to get what you want. In most cases, only the latest parts are shown in the illustrations, however, parts lists cover some parts used as early as 1971.

Number in parenthesis following description of part is the quantity needed for complete assembly shown in illustration. If there is no number in parenthesis, only one is used.

Prices of parts listed in this catalog are published separately in the latest RETAIL PRICE LIST.

NOTE: N/A following description of part indicates part is no longer available from the factory. Do not attempt to order these parts from Harley-Davidson Motor Co., Inc.

The following instructions should be followed carefully when ordering parts:

- Specify the correct part number for each item. Check the "Used On" column of the parts list which shows the model on which the part fits. Whenever in doubt, refer to the Vehicle Identification Number (V.I.N.) stamped on the engine crankcase.

1. **1971 thru 1980:** Vehicle Identification Number (V.I.N.) is located on the engine right crankcase and is the same as the number located on the frame steering head. (See chart on this page.)

2. **1981 and later:** A 17 digit Vehicle Identification Number is stamped on the frame steering head and frame downtube label. An abbreviated V.I.N. is stamped on the engine right crankcase (left crankcase — Late 1983 and later). Refer to inside back cover for chart.

The V.I.N. (Vehicle Identification Number) for 1971 thru 1980 FX models are as follows:

1971 thru 1980	FX (Model)	FIRST TWO DIGITS (Model)	NEXT FIVE DIGITS (Sequential Number)	SECOND LAST DIGIT (Manufacturer)	LAST DIGIT (Model Season)
	FX-1200	2C	1971 to Dec. 31, 1977 10000 and up	H-1971 thru 1979 J-1980	7-1977
	FXE-1200	9D			8-1978
	FXS-1200	2F	Jan. 1, 1978 thru 1980 60000 and up		9-1979
	FXEF-1200	5E			0-1980
	FXEF-80	6E	Examples: 1977 FXS-1200 (2F 12457 H7) 1980 FXB-80 (1H 61945 J0)		
	FXS-80	7G			
	FXB-80	1H			
	FXWG-80	9G			

- An asterisk (*) in the "Used On" column indicates part is used for 1984 models (the latest model year covered by this catalog.)
- Part Numbers are to be used when ordering by TELEGRAM or CABLE.
- When ordering parts use our standard Parts & Accessories order form, Part No. 99511-76, for all parts except engines and crankcases. Order form, Part No. 99514-76, must be used for engines and crankcases. The use of these forms will enable us to fill and ship your order more promptly. These forms are furnished free of charge upon request.
- Do not order motorcycles or advertising material on Parts Order Forms. Write nothing on the order form except the order itself, as any other correspondence will not be answered until the order is shipped and billed.
- Freight, Express and Parcel Post orders should be on separate order forms.
- For your own records, number and date all orders, also keep a copy for future reference.

ROCKER ARMS, COVER & PUSHRODS

This exploded view diagram illustrates the assembly of the rocker arm, cover, and pushrods. The components are numbered 1 through 48. The diagram shows the rocker arm (21) with its cover (22) and pushrods (24, 25) being installed. The pushrods are secured with pins (11A, 11) and washers (12, 13). The rocker arm is mounted on the engine block (1) using bolts (8, 10, 4) and washers (6, 3). The cover (22) is secured with bolts (45, 48) and washers (46, 47). The pushrods (24, 25) are secured with pins (11A, 11) and washers (12, 13). The diagram also shows the installation of the pushrod pins (11A, 11) and washers (12, 13) into the pushrods (24, 25). The pushrods (24, 25) are secured with pins (11A, 11) and washers (12, 13). The pushrods (24, 25) are secured with pins (11A, 11) and washers (12, 13).

This diagram is an exploded view of a mechanical assembly, likely a fuel pump or a similar component. The parts are numbered 1 through 56. The assembly includes a central cylindrical component (32) with various electrical connectors (28, 28A, 37, 40, 42) and a motor (46). There are also several mounting brackets (34, 35, 36), a fuel filter (48), and various fasteners (screws, bolts, nuts, washers). The diagram shows the relative positions of these components, with dashed lines indicating assembly paths. The motor (46) is labeled 'MOTOR' and '14-15-16-17-18-19-20-21-22-23-24-25-26-27-28-29-30-31-32-33-34-35-36-37-38-39-40-41-42-43-44-45-46-47-48-49-50-51-52-53-54-55-56'.

Pam, in my 71-83 FX Parts Book it is # 31506-79A and it indicates it was for "ALL" models 80 and later. In the 71-84 FX book it indicates this part # is now a "B" version and now it fits 84 and later as Keizo has mentioned. It would appear that we have an old error OR when this part went to the "B" version it for some reason doesn't work for 80-83 anymore ??? That makes no sense to me so I would use the -79B version as long as that is the style they are replacing in that Sturgis model.

GENERAL INFORMATION (CONT'D)

1981 & LATER VEHICLE IDENTIFICATION NUMBER (V.I.N.)

The full 17 digit serial, or Vehicle Identification Number (V.I.N.) is stamped on the steering head and on a label located on the front frame downtube. An abbreviated V.I.N. is stamped on the right side crankcase (left crankcase — Late 1983 & later), near the front of the engine. Always give one of these numbers when ordering parts or making any inquiry about your motorcycle.
